Reading LIST

Eleven-year-old Danny Chung loves drawing more than anything - certainly more than maths, which, according to his dad and everyone else, is what he is 'supposed' to be good at.

His life is turned upside down when a surprise that he's been promised turns out to be his little, wrinkly, ex-maths-champion grandmother from China. What's worse, Nai Nai has to share his room, AND she takes the top bunk!

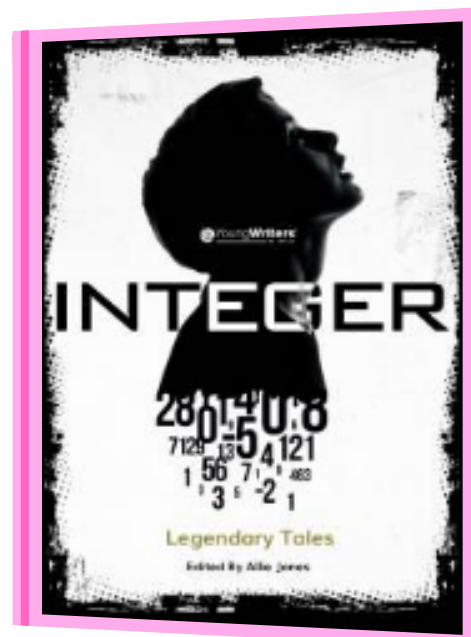

SCAN ME

Our lives are surrounded by, organised by, even dictated by numbers. Important dates, superstitions, looming deadlines, soaring prices and temperatures or even a secret code to crack; inspiration for creative writing lies in numbers all around us.

Read the work of Bosco student authors!

Ever thought making money was just for adults? Or that business was boring? And that inventing stuff was only for super clever people? Think again.

The perfect pocket guide to money, business and developing an entrepreneurial mindset, packed with tips and tricks from real businesses and fantastic role models.

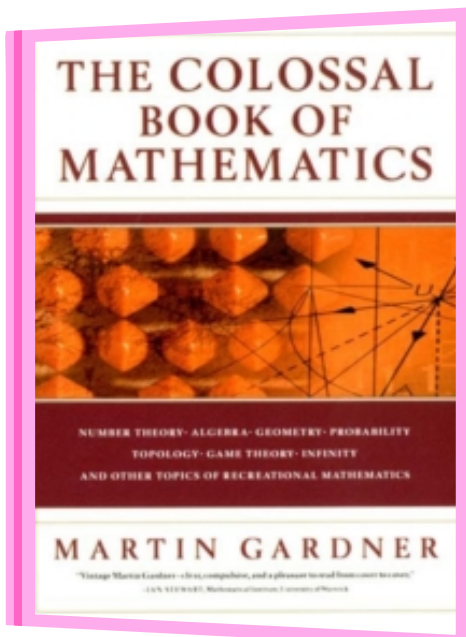

SCAN ME

Absorbing puzzles and mind-twisting paradoxes opens mathematics up to the world at large.

The culmination of a lifelong devotion to the wonders of mathematics, *The Colossal Book of Mathematics* is the largest and most comprehensive math book ever assembled by Gardner and remains an indispensable volume for the amateur and expert alike.
